

7.2.1 Describe two best practices successfully implemented by the Institution as per NAAC format provided in the Manual.

The college suggested developing an ecosystem to promote open-source technologies and in-house software development for academic and administrative purposes to cut expensive licensing fees and limitations. For labs and projects, the college recommends open-source software and tools. Students can use LibreOffice, OpenCV, PyTorch, OpenNN, TensorFlow, LaTeX, Octave, Scilab, GCC compiler, JDK, Eclipse, Umbrello, GNU plot, python compiler, packet tracer, NS2, Apache Hadoop ecosystem, and others to conduct lab experiments on desktop PCs. The college has a Linux cloud. Project groups are mentored to use open-source technologies for academic projects/contests. Examples of applications developed include Biometric marking, Leave Applications, Service Records, and Student attendance marking, among others. The Software developed is used in day-to-day college administration. KOHA, an Automated open-source package for the library is used and can be used for institutional requirements. The second Practice of the college includes Resource Sharing and Interlibrary Loan (ILL) Services to facilitate the students to avail library facilities of any of The Association of Catholic Christian Minority Institutions (ACCMI) colleges by using their current college identity card. The Resource Sharing facility maximizes the intended utilization of all the libraries. Also, every student will benefit from the variety of resources, within his/her reach.

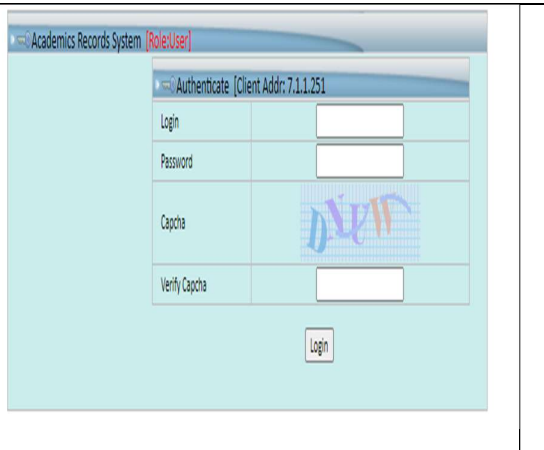

**Proof: Best Practices 1**

The college suggested developing an ecosystem to promote **open-source technologies and in-house software development** for academic and administrative purposes to cut expensive licensing fees and limitations.

Examination

**Proof- Best Practices 2**

The second Practice of the college includes Resource Sharing and Interlibrary Loan (ILL) Services to facilitate the students to avail library facilities of any of The Association of Catholic Christian Minority Institutions (ACCMI) colleges by using their current college identity card.

**ASSOCIATION OF CATHOLIC CHRISTIAN MINORITY INSTITUTIONS**

**XIE ST. JOHN**  
KARJUN PALANDE

**DEBIT KUELA** **FR. AGNEL BANDRA**

**SAT BERNALI** **FR. AGNEL VASNI**

**RESOURCE SHARING AND INTER LIBRARY LOAN SERVICE**

**Now you can avail the library facility of any of our association colleges by using your current college library card**

**ASSOCIATION OF CATHOLIC CHRISTIAN MINORITY INSTITUTIONS**

**BRIEF OVERVIEW**

Any student may approach the library of the other institutes in their vicinity for his / her book requirement. For instance, a student of XIE - Makin residing in IC Colony - Borivli, would gain access to the library of SIT and vice-versa or to the one of his/her choice. If the desired book is available, the lending library would allow the student to borrow it for reference only and make notes if required. The student, however, will not be permitted to carry the book outside the library. The Resource sharing facility would definitely maximize the intended utilization of all the libraries. Also, every student will benefit by way of access to a variety of resources and that too within his / her reach.

Rules to be followed:

1. Current College ID of the student
2. Photocopy at personal cost permissible (As per copyright norms)
3. One notebook for making notes allowed inside the library
4. If any other specific rule as observed by the individual institute.
